The man dropped off a train that pulled into Keating soon after midnight, Further investigation tends to prove that neither Father Sander nor Mrs. Kipp have done anything wrong. Not only their friends, but all their neighbors, completely acquit them of blame, now that the facts are known. The only mistake made by Mrs. Kipp, who is a good woman, was in taking temporarily an assumed name, and the only mistake Father Sander made was in permitting her to do so and in not making his own true name and calling known in the village when he visited the Far Hills (N. WHY SUNSHINE BRINGS HEALTH.

VERYONE knows that the pure country air and a chance to get close to Nature in the fields and woods, is sure to improve our animal spirits and bodily health. We are only civilized animals after all, and the present dwellers in the cities are compelled to live in badly ventilated rooms or factories filled with the germs of live in badly ventilated rooms or factories filled with the germs of disease—of grip, consumption or catarrh. They are compelled to eat their lunch hastily, and, in fact, to run the human machine at all times so improperly that they are constantly in danger of being sick. Sunshine and good air are essential for good health. Nature provides the germ destroyer, if we only find it, in a life in the open air and sunshine.\* If we are run down physically, if our blood has too many of the white blood corpuscles and not enough of the red corpuscles; if we look pale and anaemic, or with pimples or hives appearing on the skin, it's a pretty sure warning that we need a little of nature's cure. For those who are confined indoors and need a strengthening tonic, a blood and body builder, there is a remedy provided by Nature which is sure and safe—an Alterative Extract from roots and herbs, without the use of alcohol, which nourishes the tissues and nerves with good red blood. That medicine was the discovery of Dr. R. V. Pierce, the founder of the Invalids Hotel and Surgical Institute, at Buffalo, N. V. It was sold by druggists thirty-seven years ago or more and has become more popular druggists thirty-seven years ago or more and has become more popular every year since, under the name of Dr. Pierce's Golden Medical Discovery. Dr. Pierce receives quantities of grateful letters and testimonials every day. It would take all of this newspaper's space to print those received in a single month. Here is a sample.

"About seven years ago my health failed, and I tried different doctors but they could not help me," writes Reuben S. Kleppinger, Esq., of Lehighton, Pa. (Box 673). "I was still getting worse. Had a cough, pain in chest, night-sweats, was weak and nervous. I decided to write to Dr. R. V. Pierce, of Buffalo, N. Y., and state my case. I received a prompt and careful reply, which I still have in my possession. The malady was a complicated one, involving the nasal and other air-passages. There was a catarrhal condition extending from head to the bronchia and lungs. The use of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy was advised. I used alout two dozen bottles of each, also some of Dr. Pierce's Pleasant Pellets, and these remedies have done their work. Since that time I don't believe I have lost a day's work on account of sickness. Am well and have been able to eat anything ever since. Thanks seem but a slight return for all the good your medicine has done me."

"About two years ago I consulted a physician to try and get:relief from a cold which had stopped up my head, and also settled on my lungs, causing catarrh in a very bad form, and also throat difficulties," writes Justice Thomas E. Bourquin, 1808 Ogercher Road, Savannah, Ga. "He gave me some medicine, but one month's faithful use of same failed to do me any good, so I decided to try Dr. Pierce's Golden Medical Discovery, and bought a bottle. After using it a few days, my lungs began to heal, I did not cough nearly as much nights, slept much better, and in two weeks the cold, cough, catarrh and throat difficulty were all cured. I was certainly pleased with the results, and so wish to write you of it."
